

**Babergh and Mid Suffolk Joint Local Plan  
Topic Paper – Settlement Hierarchy Review**

**November 2020**

## 1. Introduction

- 1.1 This Topic Paper accompanies the Settlement Hierarchy section of the Babergh and Mid Suffolk Joint Draft Local Plan (2020). This topic paper supersedes previous Settlement Hierarchy Review Topic Papers and Services and Facilities Audit produced by the Councils in August 2017 and July 2019.
- 1.2 The purpose of this Topic Paper is to present additional detail and context behind the new Settlement Hierarchy as proposed by the Joint Local Plan.
- 1.3 As part of the preparation of the new Joint Local Plan for Babergh and Mid Suffolk District Councils, a review of the settlement hierarchy was carried out to reflect changes that have occurred over recent years and to ensure that the settlements are appropriately categorised in relation to the services and facilities they provide.
- 1.4 This study collates information on the services and facilities availability of villages in both districts. Comments received during the Joint Local Plan consultation 2017 and 2019 have been considered in the production of this Topic Paper and the resulting Settlement Hierarchy in the Babergh and Mid Suffolk Joint Local Plan.
- 1.5 Babergh and Mid Suffolk currently have different settlement hierarchies as set out in the Babergh Core Strategy (2014) and Mid Suffolk Core Strategy (2008). The Joint Local Plan seeks to provide a single hierarchy across both Districts, and this Topic Paper classifies 'Core Villages', 'Hinterland Villages' and 'Hamlets'. The classification is based on a simple scoring system (which is explained below), to indicate their relative sustainability as locations for development. Settlements that do not have ten or more well related dwellings have not been identified in the settlement hierarchy. Such settlements are addressed in the Hamlets and Clusters of Development in the Countryside policy in the Joint Local Plan.
- 1.6 The identification of towns and urban areas (as per the Babergh Core Strategy 2014 and Mid Suffolk Core Strategy 2008) will remain unchanged. These are listed below:
  - o Eye
  - o Hadleigh
  - o Needham Market
  - o Pinewood
  - o Stowmarket
  - o Sudbury
- 1.7 Additionally, the identification of the Ipswich Fringe Area will remain unchanged. The Babergh and Mid Suffolk Ipswich fringe areas have historically been designated as growth areas in recognition of the cross-boundary sphere of influence from the county town of Ipswich as a regional service centre.

## 2. Methodology

- 2.1 A scoring system has been developed (detailed in Table 1) to rank each settlement. The aim is to use a simple points system, to provide a general understanding of the level of facilities and services available to each settlement. Points are awarded to settlements if the service/facility is within, adjoining to or well related to that settlement. The weighted scoring system is based on the relative importance of each facility available within a settlement, in that some services are more essential and used more frequently than others, such as a primary school or a convenience store. As these are important facilities that reduce the need to travel by car and support the vitality of the local community, they are given a score of 2 points. Other facilities such

as a village hall or a recreation ground add to diversity and help build communities. Such facilities score 1 point, as they do not contribute as significantly to people's day to day needs.

2.2 This Topic Paper reviews services and facilities available to a settlement rather than a parish. As such a larger settlement may be classified as a 'Core Village' and a smaller settlement or cluster of dwellings may be classified as a 'Hamlet' within the same parish.

2.3 The following scores are used for the settlement hierarchy review:

- 18 points plus = Core Village
- 9 points to 17 points = Hinterland Village
- 0 points to 8 points = Hamlet Village.

**Table 1:** Settlement Hierarchy Methodology

<b>Banking / Post Office / Retail</b>		
Convenience Store	<b>2 points</b>	Provides an essential service to a community and reduces the need to travel.
Post Office	<b>1 point</b>	Provides an important local service, but is not generally used on a daily basis
Food & Drink Outlets and Public Houses	<b>1 point each</b>	Food and drink outlets and public houses are often considered to be a hub of a community, especially in rural settlements. <b>A maximum of 5 points can be awarded per settlement.</b>
Other Retail	<b>1 point each</b>	Bakers / Butchers / Hairdressers & Salons / Newsagents / ATM / Fuel Station. These are relatively important services that would be used regularly by the community. <b>1 point is awarded per service type (i.e. two butchers would only score a settlement one point)</b>
<b>Education</b>		
Pre-school	<b>1 point</b>	Local provision of pre-school places will reduce the need to travel for families with young children.
Primary School	<b>2 points</b>	Primary schools also provide an important local provision to families. Additionally, they can act as a local community hub.
Secondary School, Sixth Form/ Further Education	<b>1 point</b>	Secondary schools, sixth form campuses and further education institutions often serve a wider community and are therefore attributed with 1 point.
<b>Employment – Distance measured as travelled by road or footpaths</b>		
Employment opportunities within 3.1 miles / 5km	<b>1 or 2 points</b>	Employment opportunities close to where people live can reduce the need to travel or the distance travelled. 2 points are awarded for proximity to strategic employment sites (as defined by the Joint Local Plan <sup>1</sup> ), and 1 point for proximity to smaller scale employment sites.
<b>Community Centres</b>		
Village Hall	<b>1 point</b>	Village or community halls are a valuable facility and contribute towards the vitality of communities. They are not considered to be an essential day to day facility and are scored 1 point.
Place of Worship	<b>1 point</b>	As with village halls, places of worship can act as a hub for the community. <b>A maximum of 1 point per settlement is awarded for places of worship.</b>

<sup>1</sup> Includes sites in Acton, Eye, Great Blakenham, Hadleigh, Needham Market, Sproughton, Stowmarket, Sudbury, Wherstead and Woolpit (Sites defined through strategic employment policy in Joint Local Plan).

## Babergh and Mid Suffolk Settlement Hierarchy Review 2020

Library	<b>1 point</b>	Permanent libraries contribute to the vitality of a community. 'Mobile libraries' are excluded from this assessment.
<b>Medical</b>		
Doctors Surgery or Pharmacy	<b>2 points</b>	Provides a vital service to many communities, particularly with an ageing demographic.
Dentist	<b>1 point</b>	Dentists are generally used less frequently than doctors, and as such score 1 point.
<b>Public Transport</b>		
Bus Service	<b>2 points</b>	Bus service providing access to daily peak-time services (Monday to Friday – 7:00-9:00; 16:00-18:00) to and from a higher order settlement, provide a sustainable transport option by reducing the need to travel by car.
Rail Service	<b>2 points</b>	Rail service providing access to daily peak-time services (Monday to Friday – 7:00-9:00; 16:00-18:00) to and from a higher order settlement, provide a sustainable transport option by reducing the need to travel by car.
<b>Recreation</b>		
Recreation Grounds / Play Area / Sport Clubs	<b>1 point</b>	Recreation grounds, sports clubs and play areas offer important recreational opportunities, allowing communities a safe place to play in and enjoy the outdoors.
Sport / Leisure Centre	<b>1 point</b>	Sports and leisure centres often provide a range of activities and classes.
Allotment	<b>1 point</b>	Allotments can play an important hub within the community, and can contribute towards a sense of community and mental/physical health.
<b>Internet Connectivity</b>		
Super-Fast Broadband (Up to 76Mb)	<b>2 points</b>	Internet connectivity and the availability and speed of Broadband is an important issue for many rural communities, particularly given the rise in online shopping and opportunities for working from home. Speeds were assessed using the Better Broadband Suffolk website ( <a href="http://www.betterbroadbandsuffolk.com/">www.betterbroadbandsuffolk.com/</a> ). If any part of the settlement has access to "super-fast speed" then it shall score 2 points. 1 point is awarded for standard speed broadband.
Standard Speed Broadband (Up to 17Mb)	<b>1 point</b>	
<b>Proximity to Other Settlements – Distance measured as travelled by road or footpaths</b>		
Proximity to a Town/Urban Centre (within 3.1 miles/ 5km)	<b>2 points</b>	Larger settlements are more likely to provide a greater level of services and facilities, with smaller neighbouring settlements often looking to compliment this offering. Being within close proximity to a town/urban centre can reduce the need to travel long distances to access employment opportunities and/or services and facilities. Includes towns/urban areas outside of the Districts – namely Diss, Framlingham, Harleston, Ipswich.
Proximity to a Core Village (within 1.2 miles 2km)	<b>1 point</b>	As above Core Villages provide a good level of services and facilities and being with close proximity to a Core Village can reduce the need to travel long distances. Core Villages tend to have a lower service provision that towns/urban centres, and therefore are scored 1 point.

### 3. Results and Conclusions

- 3.1 Appendix 1 provides a full breakdown of the scoring for each settlement.
- 3.2 Tables 2 & 3 below provides the settlement hierarchy for Babergh and Mid Suffolk based on the evidence collected.
