

About our forum

We bring together disabled residents, their families, and local organisations to:

- Share views and feedback directly with council services
- Speak with a united voice on disability issues
- Make a real difference to people's lives

We help Mid Suffolk District Council and the local community listen to and learn from disabled people, to make positive changes that matter to local people.

Our work

We meet every three months to discuss:

- Accessibility
- Public services
- Public transport
- Plans and projects which affect our disabled community

We usually meet online, but some of our meetings are in person at accessible venues.

Our members can choose how involved they would like to be. For example, they can volunteer to be part of projects.

Who can join the Mid Suffolk Disability Forum?

- Anyone with an interest in disability issues in Mid Suffolk
- Residents of Mid Suffolk with any disability. (Disability comes in many forms and can be visible or hidden. You do not need to tell us what your disability is when you join.)
- Staff or volunteers from organisations working with people with any disability in Mid Suffolk
- Representatives from our local District, Town and Parish councils

A word from Linda, Chair of the Mid Suffolk Disability Forum

“I chose to be part of the forum as I want to see the barriers that affect people's lives removed, so that disabled people have equality and are always fully included.

The forum is a welcoming space to discuss any matters, big or small, that are important to you.”
