THORNDON NEIGHBOUHOOD PLAN

LOCAL GREEN SPACES

The parish of Thorndon has several 'green spaces' that are important to the character of the village and provide an amenity for its residents. Paragraph 99 and 100 of the National Planning Policy Framework (NPPF 2019) identifies the possibility of identifying green spaces that meet certain characteristics as "Local Green Spaces". The paragraphs state:

99. The designation of land as Local Green Space through local and neighbourhood plans allows communities to identify and protect green areas of particular importance to them. Designating land as Local Green Space should be consistent with the local planning of sustainable development and complement investment in sufficient homes, jobs and other essential services. Local Green Spaces should only be designated when a plan is prepared or updated, and be capable of enduring beyond the end of the plan period.
100. The Local Green Space designation should only be used where the green space is:
- in reasonably close proximity to the community it serves;
 - demonstrably special to a local community and holds a particular local significance, for example because of its beauty, historic significance, recreational value (including as a playing field), tranquillity or richness of its wildlife; and
 - local in character and is not an extensive tract of land.

This report provides an assessment of the green spaces in the village against the criteria in paragraph 100 in order to support the designation of local green spaces in the emerging Thorndon Neighbourhood Plan.
